
Accountants plus

Our research shows that one of the key frustrations clients have with their accountants is not having a fixed fee for an assignment. Our answer to this problem is the Accountant Plus range of fixed fee packages that cover core repeat work.

The actual fee is negotiated in advance and fixed for that years' service so there are **no fee surprises!** Please contact us to discuss this service and the level of package that would suit **your** requirements. Below is a brief description of the different levels of service available.

Accountant plus- basic

Your fixed monthly investment gives you:

- annual accounts
- basic tax computations and tax returns
